

Our network camera delivers high-definition image quality with exceptional clarity and sharp detail, ensuring reliable visual performance in demanding environments. Featuring low-latency transmission, it enables smooth real-time video streaming for faster response and accurate monitoring. With built-in support for remote access, users can easily view and manage live footage anytime, anywhere, making it ideal for intelligent surveillance and industrial applications.

Model	HDCam200Hi
Image device	1/2.8" CMOS sensor
Resolution	1920*1080
Zoom	Max. 30x optical
Integrated microphone	Yes
Iris	Auto
White balance	Auto
Glass fiber	SM 9/125 μ m glass fiber, ST conn.
Operating temperature	-10°C to 50°C
External dimensions	97*84*200 mm
Immunity	200 V/m up to 18 GHz
Compliance	CISPR 25 Class 5 -6dB CISPR 22 Class 5 -10dB
