

The next-generation EMC turntable are engineered to meet the most demanding testing environments. Combining uncompromising load capacity, exceptional positioning flexibility, and industry-leading delivery times, provide the reliable foundation your testing chamber needs.

An optional visualization control system based on the Windows platform is available, enabling real-time display of positioning system data and instant alarm status monitoring for more intuitive and efficient operation.

Model	TPZT-1.2/1.5/2/3/4/5/6/7
Diameter	The suffix number represents the diameter.
Height	Height is adjustable depending on the model type.
Load capability	TPZT-1.2: 300kg / 500kg / 1t TPZT-1.5: 500kg / 1t TPZT-2: 1t / 2t / 3t TPZT-3: 3t / 5t TPZT-4: 5t / 10t TPZT-5: 5t / 10t TPZT-6: 6t / 15t TPZT-7: ≥10t Other specifications can be customized upon request.
Rotating angle	-20° to 380°
Positioning accuracy	Default +/- 1° Up to +/- 0.1°
Rotating speed adjustable	0.4 rpm to 1.5 rpm
Motor	AC motor / Step motor
Turntable drive	Gear drive
Concentricity tolerance	+/- 2 mm
Elevation tolerance	< 3 mm
Control cable	Fiber optic lines
Interference suppression	CISPR22 Class B -10dB
Accessories
